

# Faculty of Life Sciences & Medicine

STAFF AWARDS 2024

KING'S  
*College*  
LONDON

# Welcome

I'm so pleased that you have joined us for this year's Faculty of Life Sciences & Medicine Staff Awards celebration.

We launched these awards last year as a means of collectively appreciating and valuing the hugely diverse contributions made by Faculty staff. We know from your feedback in the Staff Survey how important it is that we continue to recognise people's hard work and acknowledge their commitment to helping to build a thriving community for our staff and our students.

We have achieved a lot as a Faculty over the last year, from the education of so many students to research advances such as in robotic surgery, promising new treatments for cancer and other diseases, and the discovery of a new cause for asthma. There have been very significant funding successes from UKRI, the British Heart Foundation, Wellcome Trust and Cancer Grand Challenges. We have seen the launch of the London Institute of Healthcare Engineering and agreed to deliver our medical degree at the University of Portsmouth through a branch campus arrangement.

Colleagues have received prestigious prizes, been recognised in the New Year's Honours list and been elected as Fellows of the Academy of Medical Sciences. It has been wonderful to see the individual and team contributions behind some of those achievements reflected in many of the more than 240 nominations we received this year.

In response to your suggestions, we have introduced some new awards this year, including the 'Unsung Hero' and 'Inspiring Leader' awards. We have also decided to give two awards for 'Outstanding Professional Services' and for 'Outstanding Technical Services Support'. In addition to the education awards nominated by our students through the King's Education Awards Scheme, we have also now introduced staff-nominated education awards for 'Outstanding Biosciences Education Contribution' and 'Outstanding Medical Education Contribution'.

As well as offering my congratulations to all our nominees and winners, I would like to thank everyone who took the time to make a nomination and recognise their colleagues. Together we are taking the Faculty from strength to strength.

Professor Ajay Shah MD, FMedSci, FKC  
Executive Dean  
Faculty of Life Sciences & Medicine

# Winners in the Research Category

## Collaborative Research Excellence Award

This award recognises team science, where successful collaboration has been critical to the success of the research.

### Winner:

Magnetic Resonance Imaging Abnormality  
Deep Learning Identification (MIDI) team

School of Biomedical Engineering & Imaging Sciences

*A collaborative and multidisciplinary team focused on developing a clinically-validated decision-making tool to identify abnormalities in brain MRI scans, allowing early intervention and improving both short- and long-term clinical outcomes.*

## Research Guidance and Mentorship Award

This award recognises an individual who has provided excellent support, guidance, management or mentorship to early career research staff.

### Winner:

Dr Pippa Harding

School of Basic & Medical Biosciences

*An incredibly dedicated and hard-working member of the Ocular Cell & Gene Therapy team, Dr Harding has stepped in amid staffing shortages this year to support the wider research of the group, taking on organisation and planning aspects while also finding the time to mentor and support new PhD students, prepare a successful grant application and engage in several public engagement events, not to mention deliver on her own research.*

## Research Impact on Society Award

This award recognises an individual or team who has/have made an impact on society through their research, locally, regionally, nationally or internationally. That may be impact on healthcare, influencing national or international policy or guidelines, economic impact such as commercialisation and impact on the local community.

### Winner:

Professor Barbara McGowan

School of Cardiovascular and Metabolic Medicine  
© Sciences

*Professor McGowan has revolutionized obesity management locally, nationally and internationally, through her research, clinical dedication, leadership, and advocacy.*

## Early Career Researcher Achievement Award

This award recognises the achievements of an early career researcher who has made a major contribution to their field (e.g. new discovery, major publication) or to research within the Faculty.

### Winner:

Dr Ryan McNally

School of Cardiovascular and Metabolic Medicine  
© Sciences

*A Research Associate and Pharmacist, Ryan has made significant progress as an Early Career Researcher and has an impressive publication record, helping to raise the profile of the Faculty both nationally and internationally.*

# Winners in the People & Culture Category

## Award for Championing an Inclusive, Fair and Diverse Faculty

This award is for an individual or team who has/have made significant contributions in developing, promoting and embedding equality, diversity and an inclusive culture within the Faculty.

### Winner:

Dr Aileen King

School of Cardiovascular and Metabolic Medicine  
& Sciences

*A proactive Development, Diversity and Inclusion (DDI) lead and a keen advocate of inclusive education, Dr King has been closely involved with Athena SWAN initiatives, mentoring of female researchers and work to improve the experience of PhD students. She is a member of the team which received the 2023 Equality, Diversity and Inclusion award from the British Pharmacological Society for a series of short animations highlighting microaggressions in the workplace. She is passionate about promoting access to university education to underrepresented groups.*

## Outstanding Citizenship Award

This award recognises an individual who has made a substantial contribution to the Faculty above and beyond their normal duties, such as through significant leadership of internal or external networks and initiatives.

### Joint Winners:

Dr Manasi Nandi

School of Cancer & Pharmaceutical Sciences

*Dr Nandi's consistent dedication to championing equality, diversity and inclusivity within and beyond the Faculty are worthy of the highest recognition. She has willingly volunteered her time to chair high-profile University events, masterminded the 'Humanising Healthcare' podcast and supported a video showcasing student work on maternal health inequalities. She is also Development, Diversity and Inclusion (DDI) lead for the School of Cancer & Pharmaceutical Sciences and a Confidential Advisor.*

Dr Tom Francis

School of Basic & Medical Biosciences

*Dr Francis has made an enormous contribution to building structures to help support early career researchers at School, Faculty and University levels. His commitment, effort and time led to the formation of the Research Staff Network Committee which he co-chaired. Thanks to his advocacy, Teaching Fellows now have access to conference funds for teaching hours, and there are ongoing discussions to improve their mentorship within Schools. He continues to push for changes in fixed term contracts, research staff recognition and representation on committees and panels.*

## Outreach and Engagement Award

This award recognises individuals or teams who have made a significant contribution to outreach and engagement, whether that be patient, public involvement and engagement, widening participation, local or global engagement, external engagement on sustainability issues or any other issues of importance to the Faculty.

### Winner:

Dr Bahijja Raimi-Abraham

School of Cancer & Pharmaceutical Sciences

*Dr Raimi-Abraham is internationally recognised for her outreach and engagement work, with a particular focus on substandard and falsified (SF) anti-infective drugs. She has promoted pharmaceutical sciences to the public and wider communities, working with BBC News Africa on their campaign to raise awareness on the impact of fake medicines. She is also the founder of the 'Monday Science' podcast which disseminates the latest research in Medicine, Science, Technology and Health and has been ranked in the top 20 Science Podcasts on iTunes.*

## Outstanding Professional Services Award (two awards given)

This award recognises an individual member of professional services staff or a small team who has/have provided outstanding, responsive and innovative support, either expert or general, to colleagues in the Faculty. This award may also recognise contributions to developing others, including outstanding line management, mentorship or support for training and development of professional services colleagues. It may include leading innovation that has impacted significant improvement in support for a local or wider area of activity; supporting the outstanding delivery of education, responding to unforeseen circumstances and going above and beyond expectations; collaborating with colleagues across the Faculty and College to bring a positive change to working practice.

### Winners:

Genevieve Lachance

School of Life Course & Population Sciences

*Genevieve brings clarity and efficiency through her work on the data team and has led several major initiatives that have helped drive research efforts forwards, such as setting up a database for a study on baby twins and applying for and receiving Electronic Health Records and ONS data on around 15,000 TwinsUK cohort participants, a major and complex endeavour that took more than two years.*

Linda Almici, SLCPS

School of Life Course & Population Sciences

*Linda's professionalism in providing first class financial and HR support is exemplary. She tackles complex tasks with unwavering determination, never losing sight of the bigger picture. Beyond her in-depth knowledge, Linda's diplomacy skills shine brightly, and her personal approach means that people feel cared for. She excels in resolving conflicts and promoting harmonious relationships and has the ability to forge strong connections with colleagues. Passionate about inclusivity, she is a driving force behind the School's Development, Diversity & Inclusion (DDI) committee, actively advocating for diversity, equity, and fairness.*

## Outstanding Technical Services Support Award (two awards given)

This award recognises a member of technical services staff within the Faculty who has made a significant 'above and beyond' contribution to research, teaching or sustainability.

**Winners:**

Dr Risa Mori

School of Basic & Medical Biosciences

*Dr Mori consistently goes above and beyond to ensure the smooth running of the department and is described by colleagues as 'always approachable with a 'can do' attitude; someone who creates a great working environment'. On top of her day-to-day role, Dr Mori leads the Continuous Improvement Technical Building Group at New Hunt's House, has volunteered to take on training responsibilities for the department and put herself forward as a biological safety officer when few of the research staff were willing to take on such an important communal role.*

Dr Hannah Rosa

School of Cardiovascular and Metabolic Medicine  
& Sciences

*Dr Rosa consistently goes above and beyond to meet the research needs of the department and school. Founder of the 'green team' initiative which seeks to implement more sustainable lab practices, she has been the driving force behind the lab's LEAF submissions, ultimately securing the gold award in 2023. She works with individuals and companies outside the lab to promote engagement, organising a work experience week for GCSE and A-level students and running an outreach stand at the Society for Endocrinology BES conference. She undoubtedly improves the culture of the department as well as overall research productivity and health and safety.*

## Unsung Hero Award

This award recognises a member of staff who consistently and tirelessly seeks to improve the way their team, department, School or the Faculty works, but who has little wider visibility. For example, those who consistently help troubleshoot in the event of an emergency, who help ease the pressure on others or go above and beyond to support colleagues.

### Winner:

Sarah Ryan

School of Immunology & Microbial Sciences

*Sarah plays a key role in making sure the Centre for Inflammation Biology and Cancer Immunology (CIBCI) laboratories function smoothly, and her involvement in sustainability initiatives have led to CIBCI securing silver and then gold awards. She is currently a sustainability champion and chair of the CIBCI sustainability group. Valued as an integral member of the wider CIBCI community, she does a huge amount of work behind the scenes, noticing problems that need solving and dealing with them before anyone else is even aware.*

## Inspiring Leader Award

This award recognises an individual who has inspired others through their leadership, created a positive environment, championed equality, diversity and inclusivity and shown visibility and openness to help and support those they lead.

### Winner:

Sophie Lo

School of Life Course & Population Sciences

*As School Manager, Sophie's positivity, problem-solving, presence and calm attitude in facing enormous challenges are truly inspiring. Through the many changes the School has undergone in recent years, Sophie has established a sense of togetherness for staff across sites, making everyone feel welcome and valued. She has worked hard to streamline processes, resulting in faster delivery of services. An effective team player, she quietly diffuses any tensions which arise, allowing her solutions-focused approach to shine through.*

# Winners in the Education Category

## Sustained Excellence Award

This award recognises the contribution of an individual (or team) over time which has led to a sustained positive impact on the learning and teaching community, or overall student experience at King's.

### Winner:

Dr Alistair Hunter

Senior Lecturer, Centre for Education

*Over the last 30 years, Dr Hunter has taught anatomy to both Medical and Bioscience students to an exemplary standard in ways they both understand and appreciate. Students say that his breadth and depth of knowledge is unmatched and describe him as 'an inspiration'. His outstanding teaching is combined with a huge level of student support.*

## Innovations in Teaching Award

This award recognises the contribution of a pioneering individual (or team) who has taken on new, innovative approaches to designing effective learning environments, delivering creative and inspirational teaching.

### Winner:

Dr Emma Soo

Anatomy Demonstrator, Centre for Education

*Dr Soo consistently demonstrates a pioneering spirit in educational methodologies, integrating technologies and pedagogical strategies to transform the way anatomy demonstrators approach teaching and learning. Her inventive curriculum design and engaging instructional delivery have not only captivated our students, but also sparked a culture of continuous innovation within our anatomy teaching.*

## Inclusive Education Award

This award recognises an individual (or team) who shows commitment and dedication to widening participation by creating a diverse and inclusive environment, through curriculum content and design, teaching practice, and/or supporting students and colleagues.

### Winner:

Dr Hardeep Baht

Consultant Stroke Physician, Centre for Education

*Dr Baht's commitment to fostering diversity and inclusivity within our academic community is outstanding. An incredibly approachable supervisor, he has supported students with a range of learning needs, drawing on different techniques to create a fertile and supportive learning environment where every voice is heard and valued. His efforts have significantly contributed to an educational atmosphere that not only welcomes but celebrates the richness of backgrounds and perspectives that define our medical student body.*

## Excellent Feedback Award

This award recognises an individual (or team) who consistently applies feedback practices that are integral to supporting student development and learning.

### Winner:

Dr Eleni Josephides

Clinical Oncologist, Centre for Education

*Dr Josephides has shown unwavering commitment to enhancing the learning journey of our students, helping them develop through the provision of excellent feedback. She has offered consistently fantastic mentorship, employing feedback practices that are not only constructive but also empowering, guiding students towards academic and personal growth.*

## Student Support Award

This award recognises an individual (or team) who frequently goes the extra mile to support students in and outside of the classroom.

### Winner:

Professor Stephen Sturzenbaum

School of Cancer & Pharmaceutical Sciences

*Professor Sturzenbaum is known for his unwavering support for students - both his personal tutees and those in the wider department. From prompt responses to emails, using friendly and inclusive approaches, to student meetings, to anticipating student problems and empowering them to solve them, he always demonstrates empathy and is described by students as 'a genuine, kind and super approachable member of the academic team'.*

## Expanding Opportunities Award

This award recognises an individual (or team) who purposefully include students in co-curricular opportunities and who support students in engaging in ways to connect their academic experience to broader initiatives such as service, internships, employability skills, or through involvement in improving the curriculum.

### Winner:

Dr Anatoliy Markiv

Reader in Digital Education, Centre for Education

*Dr Markiv has dedicated an enormous amount of time over the past six years mentoring teams of students to success in the iGEM competition. Students have described this experience with him as 'transformative' and 'instrumental' in their academic and personal growth. Dr Markiv instils in them core values such as perseverance and self-confidence that extend far beyond the competition.*

## Outstanding Biosciences Education Contribution Award (staff nominated)

This award recognises a member of academic, teaching or professional services staff or a team who has/have made a significant contribution to the development and delivery of Biosciences Education.

### Winner:

Synthetic Anatomy Module Team

*The innovative Synthetic Anatomy module developed and delivered by this team takes anatomy into the realms of bioengineering, 3D printing, arts, and science fiction, pushing the boundaries of clinical, evolutionary and developmental anatomy. Teaching emphasises experimentation and learning from setbacks, within a culture of risk-taking, and assessment methods measure student pride and engagement in authentic ways.*

## Outstanding Medical Education Contribution Award (staff nominated)

This award recognises a member of academic, teaching or professional services staff or a team who has/have made a significant contribution to the development and delivery of Medical Education.

### Winner:

MBBS Branch Campus Team

*The King's / University of Portsmouth branch campus will begin delivering medical education in August thanks to the efforts of this project team. The team has worked incredibly hard to translate agreed plans into reality, ensuring the curriculum is safely delivered to GMC standards and links with existing governance.*

# Winners of the Executive Dean's Special Awards

## Executive Dean's Award for Global Impact

**Winner:**

Dr Jamie Murdoch and Professor Lara Fairlall

School of Life Course & Population Sciences

*Dr Murdoch and Professor Fairlall's work in South Africa has been instrumental in driving impact from research and will provide a four-star impact case study for REF 2029. They have established longstanding partnerships between King's, the Knowledge Translation Unit, international Universities, Research Councils, Ministries of Health at federal and state level, and NGOs, and have embedded a clear research-to-practice and policy pipeline.*

## Executive Dean's Award for Lifetime Contribution to People & Culture

**Winner:**

Professor Heidi Lempp

School of Immunology & Microbial Sciences

*Before retiring earlier this year, Professor Lempp was the Development, Diversity and Inclusion (DDI) lead within the School of Immunology & Microbial Sciences. She energetically promoted a fair and inclusive culture not only within the School but also across the wider Faculty and University. An active member of the 'Decolonization of the Curriculum' committee for the MBBS programme, Professor Lempp was critical in setting up successful student focus groups to understand and implement changes.*

## Special thanks to our judges:

- ▶ Professor Ajay Shah, Executive Dean
- ▶ Professor Helen Collins, Dean of Bioscience Education
- ▶ Professor Nicki Cohen, Dean of Medical Education
- ▶ Professor Rachel Tribe, Vice Dean (Research & Impact)
- ▶ Professor Emily Williams, Vice Dean (People & Culture)
- ▶ Peter Bond, Director of Operations
- ▶ Dr Daniel Martin, Head of Technical Services
- ▶ Louise Merritt, Associate Director of Education
- ▶ Professor James Mason, Associate Dean (Impact & Innovation)
- ▶ Dr Anna Montgomery, Research & Impact lead for the Faculty's Research Staff Network

### Prizes

All our individual winners will receive a £75 voucher, and winning teams will receive £50 per person up to a maximum of £350.

# Our Nominees in the Research Category

## Individuals

Tomoki Arichi	Veline L'Esperance	Miraz Rahman
Dustin Bagley	Miranda Lomer	Martin Rees
Christos Bergeles	Barbara McGowan	Jody Rosenblatt
Alysha Chelliah	Ryan McNally	Richard Thompson
Vasa Curcin	Mariam Molokhia	Tom Vercauteren
Luca Faconti	Jamie Murdoch	Kevin Whelan
Lara Fairlall	Joaquim Nunes Vieira	
Ana Georgian		

## Teams

Maternal and Perinatal Mental Health Team  
at the NIHR ARC South London

Jane Sandall, Abigail Easter, Louise Howard, Paul Seed, Cristina Fernandez Turienzo, Hannah Rayment Jones, Sam Burton, Zoe Chloe, Kaat de Backer, Zahra Khan, Claire Wilson, Mary Newburn, Claire Dorman

APIPPRA Trial Team

Andrew Cope, Marianna Jasenecova, Joana Vasconcelos, Sumera Qureshi, Toby Prevost, Caroline Murphy, Joanne Kelly, Kirin Sultana, Maria Opena, Kathryn Steel, Lizzy Pook, Carl Coyle, Gaby Harker, Sarah Ryan, Dharshene Shivapatham, Jeanette Hansen

Translational Oncology & Urology Research (TOUR) Team

Mieke Van Hemelrijck, Louis Fox, Gincy George, Jasmine Handford, Charlotte Moss, Beth Russell, Ailbhe Lawlor, Maria Monroy Iglesias, Eleni Josephides, Harriet Wylie, Anna Haire, Addressa Schneiders, Saran Green, Mark Rowley, Emily Curtis, Rebecca Martin, Ziyang Zhang, Danielle Crawley, Netty Kinsella

Cardiovascular Clinical Administration Team  
Ramesh Valapil, Lucy Hewett, Olga Gad,  
Karina Patinhas Estrella, Abisola Segilola,  
Ayoob Ghedda, Dinese De La Cruz, Grace Danielle Ifura

Magnetic Resonance Imaging Abnormality Deep Learning  
Identification (MIDI) Team

Giusi Manfredi, David Wood, Yiran Wei,  
Matthew Townend, Sebastien Ourselin, Siddharth Agarwal,  
Alysha Chelliah, Thomas Booth, Eric Kerfoot,  
Jacqueline Beddoe-Rosendo, Onur Ulgen, Lorenza Grechy,  
Julian Dye, Gareth Barker, Emily Guilhem, S Kafiabadi,  
Ayisha Al Busaidi, Asif Mazumder, Berna Aygun,  
Gehad Abdalla

# Our Nominees in the People & Culture Category

## Individuals

Thanussuyah Alaguthurai	Angela Gates	Sophie Lo	Elsa-Marie Otoo	Claire Steves

Frances Fowler	Aileen King	Jo Murphy	Rocio Sancho	Laura Zappulla
Tom Francis	Genevieve Lachance	Manasi Nandi	Jane Sandall	
Eryn Fyson	Heidi Lempp	Paul Newton	Samrat De Sarkar	
Karon Galvin		Rosamond Nuamah	Greta Sawyer	

## Teams

### Success for Black Engineers Working Group

Abdoul Aziz Amadou, Tiffany Baptiste, Kathryn Boast, Karon Galvin, Tom Hunter, Ernest Kamavuako, Tiarna Lee, Paul Marsden, Deanne Naula, Shaheim Ogbomo-Harmitt, Elsa-Marie Otoo, Antonia Pontiki, Kawal Rhode, Sophie Rust, Mandeep Gill Sagoo, Ryan Satnarine, Kavitha Sunassee, Tabbi Wilberforce Awotwe, Miriam Al-Hussona, Maram Alqarni, Hannah Ishmael, Andy King, Michael Marcinkowski, Julien Quarez, Sophie Rust, Anna Taliadoros, Brian Tshuma

### New Scientist Live 2023 Team

Lauren Colosimo, Radha Raheja, Sophie Rust, Irina Badita, Tiarna Lee

### Public Engagement Team, School of Biomedical Engineering & Imaging Sciences

Alice Taylor-Gee, Lisa Whittaker, Deanne Naula

### IMPACT Team

Seeromanie Harding, Divya Parmar, Jamie Murdoch, Xanthi Zourntos, Mariam Molokhia, Marjorie Lima do Vale

### Centre for Inflammation Biology & Cancer Immunology (CIBCI) Sustainability Core Team

Sarah Ryan, Elizabeth Gray, Anisha Sharma, Esperanza Perucha, Soamopriya Som

### Faculty Early Career Researcher Conference Organising Committee

Louise Pacelli, Grace Walden, Naheem Yaqub, Gregory Dow, Christian Baker, Michaeljohn Kalakoutis, Siddesh Shetty, Daniela Pereira Carvalho, Florence Tydeman, Tom Francis, Rachel Tribe

### Faculty Research Staff Network Committee 2023

Tom Francis, Naheem Yaqub, Triona Fielding, Grace Walden, Christian Baker, Lucia Montorsi, Siddesh Shetty, Michaeljohn Kalakoutis, Ana Georgian, Alexandra Mayne, Jocelyn Grant, Louise Pacelli

### School of Biomedical Engineering & Imaging Sciences

#### Finance Team

Miwako Eliasson, Kieran Cooper, Patrick Wong

Preclinical Operations, St Thomas's Campus  
Kavitha Sunassee, Adam Jones

The Inter-Professional Education Team within Programme,  
Placement & Assessment, Faculty Education Services  
Jade Suckley, Riya Sood

Surgical and Interventional Engineering (SIE) Facilities Team  
Duane James, Marty Rajaratnam

Imaging Chemistry and Biology Department Technical Team  
Matthew Hutchings, Shivam Bhardwaj, Louis Kitchenham,  
Adam Jones

Faculty Technical Team Supporting Laboratory Teaching  
Klaire Neal, Kinza Mahmood, Julian Evans, Tom Littlewood

The Dissecting Room Team, Guy's Campus  
Kirsty Massetti, Doug MacGregor, Mark Bradshaw,  
Nicola Stanbridge

School of Biomedical Engineering & Imaging Sciences  
Pre-Awards Team  
Raj Chitnavis, Aleksandra Januszkiewicz, Joanna Lintowska

## Our Nominees in the Education Category

Nominations for the awards in this category (with the exception of the staff-nominated Outstanding Biosciences Education Contribution and Outstanding Medical Education Contribution Awards) were from students. The nominees were individuals put forward to represent the Faculty at the King's Education awards.

### Individuals

Ana Alcock	Kourosch Ebrahimi	Kholoud Al Jamal	Kosha Mehta	Harkanwar Singh
Eve Allen	Emily Everson	Anna Jones	Elise Millis	Aaditya Sinha
Hardeep Baht	David Fear	Eleni Josephides	Dafydd Morgan	Emma Soo
Mahmood Bashir	Nourhan Gamal	Ajikumar Kavidasan	Andrea Nahum	Nadia Stephaniuk
Katie Carpenter	Fouad Gomaa	Alec Knight	David Parry	Stephen Sturzenbaum
George Chater	Paul Gozzard	Apoorva Kumar	Eve Rushforth	Chris Thom
Mydhili Chellappah	Melissa Hanger	Herman Lai	Samrat De Sarkar	Jane Valentine
Diane Clark	Alistair Hunter	Jason Langley	Mohsen El-Sayed	Grace Walden
James Clark	Eduardo Iacoponi	Ian McFadzean	Sohini Sengupta	Chu Yiu
Lisa Daniel	Owen Ingram	Anatoliy Markiv	Paul Sharp	Ben Zuckerman

## Teams

### Synthetic Anatomy Module Team

Richard Wingate, Kawal Rhode, Leigh Wilson,  
Mandeep Gill Sagoo

### MPharm Steering Committee

Sukhi Bansal, Driton Vllasaliu, Ben Forbes, Richard Parsons,  
Graham Davies, Janique Smit, Parastou Donyai,  
Jonathan Lopez-Real, Helen Costello

### Academic Physiotherapy Team

Lorna Johnson, Kate Bazin, Emma Godfrey,  
Stewart Morrison, Vicky Theodorou, Marco Davare,  
Julie Whitney, Arietta Spinou, Paulina Kloskowska,  
Ulrike Hammerbeck, Victoria Reboredo, Roberto Vergara,  
Matt O'Connell

### MBBS Branch Campus Project Team

Russell Hearn, Hayley Clarke, Jonathan Wicks,  
Pedro Diego Fernando Rozada, Rosalind Fuller,  
Helen Lofthouse, Helen Costello, Dave Byrne,  
Chrissi Robinson, Daniel Walker
