Health and Safety

If the alarm sounds, follow the instructions given on the tannoy.

If you are told to get yourself to the nearest fire exit, they are marked with clear fire exit signs.

First Aid can be provided by Security Staff at the entrance of the Maughan Library.

Keep your valuables safe, do not leave them unattended.

Brief history of the building

The roots of building lie in a house built on this site in 1232 by Henry III as a refuge for Jewish people who had forcibly converted to Christianity to avoid expulsion from Henry's realm.

Later, on the same site, the Public Records Office was built.

This is the building you see today.

It was built between 1856-1898 and is now grade II* listed building.

It is the first purpose-built fire-proof building after the Palace of Westminster had burned down in 1836.

King's got the building in the late 1990s and turned it into the library it is today.

The library was named in honour of Sir Deryck Maughan, an alumnus of the university.
