

**NIHR** | Maudsley Biomedical  
Research Centre

The Translation Academy and Industry Partnerships team invite you to the second in a series of workshops delivered by biopharmaceutical company UCB.

- **Aiming for patients to benefit from your research?**
- **Daunted by the translational process?**

**Learn how to translate your research from UCB Pharma's Dr Geoff Johnston, Head, Precision Medicine and Biomarkers, Translational Science at UCB Pharma**

**Event:** **UCB Pharma Workshop 2: Precision Medicine and Biomarker Development**  
*Biomarker uses, validation and implementation.*

**UCB speaker:** Dr. Geoff Johnston, Head, Precision Medicine and Biomarkers at UCB Pharma

**Day and time:** Monday 5th February 2024, 12:30pm – 1:30pm GMT

**Registration for  
online event:** [Register here](#)

### **What is the Translation Academy?**

The Translation Academy has been formed by the Translational Research Office, to provide researchers at King's College training in how to translate their research.

Together with the Industry Partnerships team and IP & Licensing team, we form part of Innovation@King's. Through the Industry Partnerships team, we have partnered with biopharmaceutical company UCB, to deliver a series of workshops to raise awareness and understanding of the translational development journey from an industry perspective.

The series of workshops will also cover:

- Early evidence strategy – treatment of evidence by assessment bodies, the evolution of evidence and the quality measures defined by appraisal bodies globally.

**NIHR** | Maudsley Biomedical  
Research Centre

## Info and registration

Attendance to this workshop is encouraged for all of King's academics and staff.

Please reserve your place here:
