

# Twenty sixth meeting of the **London Myology Forum**

**Wednesday 19th July 2023**

*at the Royal Veterinary College, London, NW1 0TU  
with online (virtual) access*

1.00-1.40pm: **Dr. Luca Fusi**

Kings College London

*Dual-filament regulation of contraction in  
skeletal and cardiac muscle*

1.40-2.00pm: **Dr. Alberto Malerba**

Royal Holloway, London

*Gene therapy for Oculopharyngeal  
muscular dystrophy*

2.00-2.20pm: **Claire Massey**

Royal Veterinary College, London

*Investigating a common equine polyglucosan  
myopathy with a rodent model*

2.20-3.00pm: **Dr. Lila Allou**

University College London

*Functional Regulatory Genomics  
and Disease*

3.00 -3.30pm: **Break**

3.30-4.10pm: **Prof. Giorgio Tasca**

Newcastle University

*An MRI-targeted approach to disentangle  
Facioscapulohumeral muscular dystrophy*

4.10-4.30pm: **Elise Engquist**

Kings College London

*Assessing regeneration in muscular  
dystrophies using transcriptomics*

4.30 to 4.50pm: **Dr. John Hildyard**

Royal Veterinary College, London

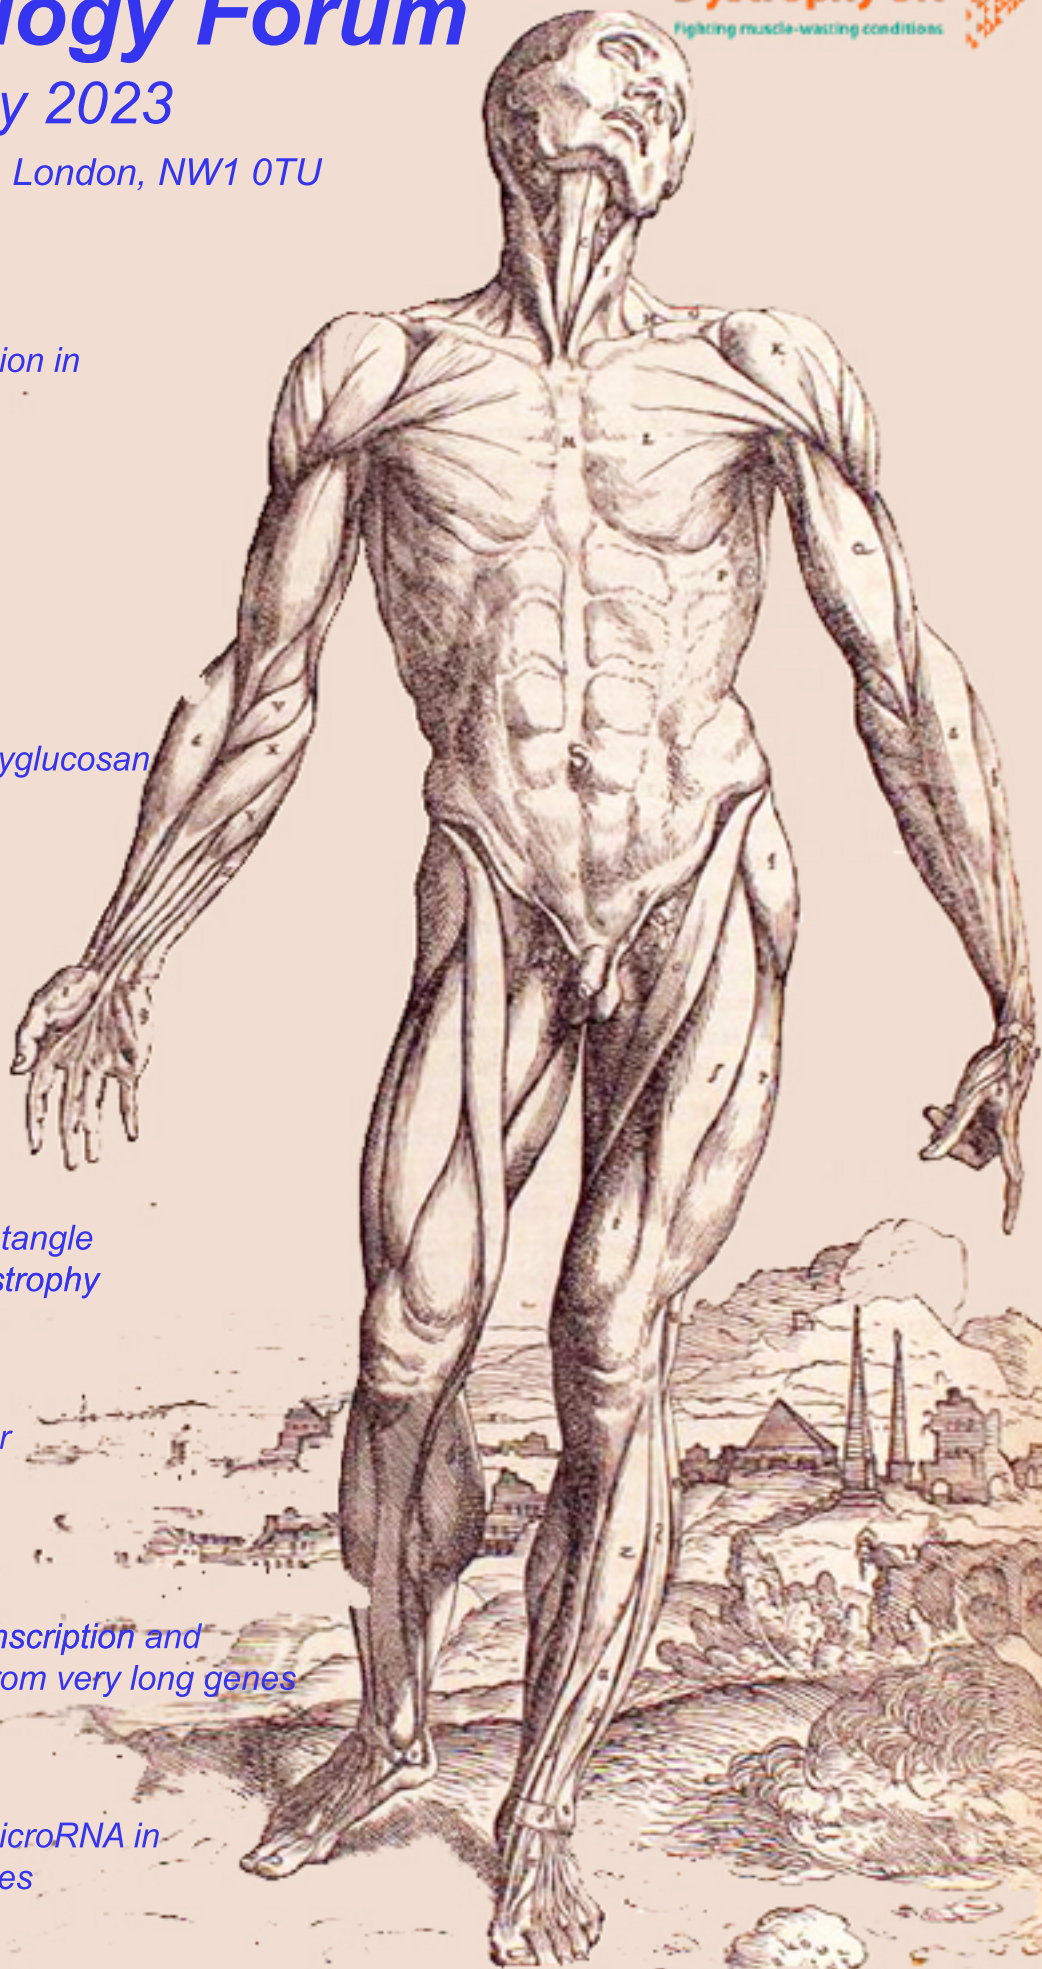

*The eccentricities of dystrophin transcription and  
the hazards of quantifying mRNA from very long genes*

4.50 to 5.30pm: **Prof. Anders Näär**

University of California, Berkeley, USA

*Pathological roles of a metabolic microRNA in  
skeletal and cardiac muscle diseases*

5.30 to 6.30pm: **Refreshments**
