

School of Cardiovascular Medicine & Sciences Biobank and Repository
(HTA Licence 12522 & 12293, NRES 23/LO/0506)

Sample & Data Access Application

Please complete all sections of this form. Information provided will be used to:

1. Make an application to use samples and data from the School of Cardiovascular Medicine & Sciences Biobank and Repository
2. Evaluate whether the request complies with conditions of the Biobank NHS REC approval (studies which comply with these conditions do not require a separate NRES approval)
3. Register the study with Guy's & St Thomas' NHS Foundation Trust R&D

Section 1	
Title of Study	
Name, Address & e-mail of Principal Investigator	
Name, Address & e-mail of applicant if different to investigator	
Summary of study The summary must clearly outline the study design and the main analytical strategy including statistical methods in brief. Note that except for small explorative studies a power calculation is needed	

Specific Sample and/or Data Requirement Indicate the type, format and quantity of sample required. List the associated data fields.	
--	--

Study start date		Study completion date	
-------------------------	--	------------------------------	--

Section 2	
How will the study be funded? Details must be provided of the funding source to complete the study (including biobank costs)	
What are the study outcome measures? In numerical terms, how the primary objective of the study will be met from the data collected	
List the GSTT resources needed for the study Does not include tissue and/ or data	
If you are using GSTT resources, please print this form and obtain authorisation from the R&D Theme Lead by completing Section 3	

For official use

Date application received		Date Access Committee approval	
Date R&D approval		R&D Number	

Section 3: Study Authorisation from R&D Theme Lead	
Study Title	
Name of Authorising Person	
e-mail Address of Authorising Person	
Signature	
Date
