

PSCAG Research Activity Newsletter

August 2025

This newsletter captures research outputs from October 2024 onwards, if not reported in the previous newsletter (May 2025).

News

Book your ticket now

The annual symposium of the PSCAG will take place on **Tuesday 30th September** at the 8th Floor Bush house, South terrace, King's College London. The event includes talks by pharmacy professionals about their research, the awarding of honorary clinical titles and poster presentations demonstrating the breadth of research carried out across KHP. To register please click [here](#). Food and drinks will be provided.

Pharmacist-led research grants for renal pharmacists

Pharmacists play a vital role in renal research, offering valuable clinical insight and practical expertise that help to drive progress and improve outcomes for patients. In partnership with Pharmacy Research UK, the UK Kidney Association's Renal Pharmacy Group, the Paediatric Medicines Research Unit, Kidney Research Yorkshire, Alder Hey Children's Hospital, and the Thompson Family Trust, we are providing dedicated funding to ensure renal pharmacists play a key role in shaping the future of kidney care.

This initiative is now in its second year, building on the success of 2024 to further strengthen the capacity for renal pharmacy-led research across the UK. With our new strategic focus, we particularly welcome applications that explore the link between kidney disease and cancer. The program is *open to all UK-based pharmacists working in renal medicine*. For more information please visit: [Pharmacy-led research grants - Kidney Research UK](#)

Pharmacy Research UK mentoring scheme

The PRUK Mentoring scheme is intended for pharmacy professionals who want to develop their professional capacity within research and are seeking advice, guidance or support from experienced peers. Professionals who have experience with research relating to pharmacy practice or the safe and effective use of medicines within a health research setting are welcome to sign up as mentors to this scheme.

Any professionals working within or looking to engage with pharmacy related research and wish to develop their skills further are welcome to sign-up to the scheme and benefit as a mentor. For more information please visit: [PRUK Mentoring Scheme - Pharmacy Research UK](#)
