

## PGR Radiopharmacy Online Course – January 2024 Feedback

- Very much enjoyed the course, it was a privilege to be lectured by such experienced professionals. It has given me a taste to go on and try some more courses in the future!
- Thank you for a very comprehensive course that was very well organized.
- Really well organized, thank you.
- Great course. Thank you!
- Very useful course.
- Great course! Thanks a lot.
- It was obvious that the lecturers were all highly competent and masters of their craft. The information was very useful, and it was a great opportunity.
- This course was very informative and useful!
- I am working as QP in Pharmaceutical Industry. This course is incredibly useful.
- Excellent over the 5 days well organised
- Great, the course ran very smoothly
- The timings worked well with my work and personal life commitments.
- I really liked having it over 5 days helped to process the information. I thought the quizzes were excellent.
- Very good, really well run, great resources sent out ahead of time. Sessions all went ahead and ran to time.
- Great course, plenty of breaks and having the slides sent out in the coursebook was useful
- The speakers displayed and shared their vast experience and knowledge to good effect.
- Thank you for a very comprehensive course
- I want to say thank you for creating such a well organised, interesting and knowledgeable course. I'm glad this course was run the way it was. Before we started this course, everyone at work who has attended said that it was such an interesting course and now I understand why.
- Very useful and interesting course has given me a brilliant insight into Radiopharmacy.
- Thank you very much for the time and effort taken to all the presenters and those involved in putting on the course.
- I found this a very engaging course.
- Thank you for delivering a great course and support throughout the week. Well done all!
- The course was so enriching. Thanks!
- This course was very informative and useful.
- Thank you to everyone involved in making this course so enjoyable. I am recommending this course to a few work colleagues that recently joined our team.

### **What did you learn?**

- I learnt about Radiopharmacy and how vital it is of service to NHS
- I learnt something new in each lecture!
- I learnt a lot about Radiopharmacy which is a fairly new area for me. I am really happy I signed up.
- I learnt that there are a lot more uses for Radiopharmacy and nuclear medicine than I thought, and I learnt about the complexity of blood labelling.
- This course has really improved my understanding of the radiopharmaceuticals used in Radiopharmacy and the uses of those specific radiopharmaceuticals/techniques
- I'm new to Radiopharmacy, I had a basic understanding of what occurs, but it was more of a "this is how you do this" etc. But thanks to this course, I now understand why we do these things and have a more in depth understanding of what I do at work every day.
- I didn't have any background in radiopharmaceuticals, and I can now understand their diagnostic and therapeutic uses.
- Everything was interesting and educational, as I have not been very familiar with these topics before.
- Almost everything we learnt was new and useful! I really enjoyed the content and found it very interesting.
